

# composites

Published by Butterworth Scientific Limited

## Index to volume 15 (1984)

No 1 (January) pp 1-88  
 No 2 (April) pp 89-168  
 No 3 (July) pp 169-248  
 No 4 (October) pp 249-328

### Abstracts

Abstracts of patents 83, 165, 244, 318  
 Literature survey 78, 161, 240, 314  
 Abstracts/Résumés/Auszüge 11, 98, 176, 256

### Authors

Adams, D.F. 181  
 Adams, R.D. 193, 297  
 Aki, F. 57  
 Andersson, C.-H. 16, 101  
 Ashton, J.N. 67  
 Beauchamp, M.J. 33  
 Bishop, S.M. 259  
 Bucknall, C.B. 129  
 Caprino, G. 231  
 Chai, H. 277  
 Collings, T.A. 33  
 Coutts, R.S.P. 139  
 Crane, D.A. 181  
 Crivelli-Visconti, I. 231  
 Curtis, P.T. 259  
 Demuts, E. 25  
 Di Ilio, A. 231  
 Esterling, D.M. 305  
 Genta, G. 49  
 Hale, J.M. 67  
 Hall, D.J. 266  
 Hollaway, L. 61  
 Hughes, D.C. 153  
 Kadotani, K. 57  
 Kameswara Rao, C.V.S. 291  
 Lin, D.X. 297  
 Mallin, G.M. 61  
 Matondang, T.H. 217  
 McMullen, P. 222  
 Naik, N.K. 310  
 Ni, R.G. 193, 297  
 Partridge, I.K. 129  
 Piccarolo, S. 39  
 Potter, R.T. 112  
 Purslow, D. 43, 112, 207  
 Radon, J.C. 211

Rajaiah, K. 310  
 Ramsteiner, F. 121  
 Robson, B.L. 266  
 Rosenow, M.W.K. 144  
 Schütz, D. 217  
 Shibuya, I. 134  
 Short, D. 200  
 Shyprikevich, P. 25  
 Summerscales, J. 200  
 Swann, R.T. 305  
 Theysohn, R. 121  
 Titomanlio, G. 39  
 Wachnicki, C.R. 211  
 Warren, R. 16, 101  
 Watanabe, T. 134  
 Yasuda, M. 134

### Book Reviews

Composites for extreme environments 159  
 Composites materials testing and design 239  
 Damage in composite materials: basic mechanisms, accumulation, tolerance and characterization 72  
 Developments in reinforced plastics-3 313  
 Fracture behaviour of polymers 313  
 GRP in structural engineering 238  
 In situ composites IV 238  
 Weathering of polymers 159

### Conference Reports

ICM4-4th International Conference on the mechanical behaviour of materials 71  
 4th International Conference of SAMPE European Chapter 235  
 Well engineered materials in combination 236

### Research Reports

Elastic behaviour of composite structures under low velocity impact  
 G. Caprino, I. Crivelli-Visconti and A. Di Ilio 231  
 A novel tensile specimen for sheet material  
 J.M. Hale and J.N. Ashton 67

### Titles

Titles are listed alphabetically, ignoring definite and indefinite articles  
 Accelerated environmental testing of composites  
 E. Demuts and P. Shyprikevich 25  
 Amplitude distribution acoustic emission signatures of unidirectional fibre composite hybrid materials  
 D. Short and J. Summerscales 200  
 Analysis of interlaminar shear strength of mica/epoxy insulations  
 K. Kadotani and F. Aki 57  
 An assessment of the potential of woven carbon fibre-reinforced plastics for high performance applications  
 P.T. Curtis and S.M. Bishop 259  
 Autoclaved beaten wood fibre-reinforced cement composites  
 R.S.P. Coutts 139  
 Bearing deflection behaviour of a loaded hole in CFRP  
 T.A. Collings and M.J. Beauchamp 33  
 The characterization of Mode I delamination failure in non-woven, multidirectional composites  
 H. Chai 277

Chemical feasibility of lithium as a matrix for structural composites R.T. Swann and D.M. Esterling	305	composite using compliance and Moiré techniques C.R. Wachnicki and J.C. Radon	211	predicting the stiffness and damping of laminated plates and beams R.G. Ni and R.D. Adams	193
Combined loading micromechanical analysis of a unidirectional composite D.F. Adams and D.A. Crane	181	Fibre/resin composite for aircraft primary structures: a short history, 1936-1984 P. McMullen	222	A review of the design and materials evaluation programme for the GRP-foam sandwich composite hull of the RAN minehunter D.J. Hall and B.L. Robson	266
Composite fractography without an SEM—the failure analysis of a CFRP I-beam D. Purslow	43	The influence of anti-buckling guides on the compression-fatigue behaviour of carbon fibre-reinforced plastic laminates T.H. Matondang and D. Schütz	217	Silicon carbide fibres and their potential for use in composite materials. Part 1 C.-H. Andersson and R. Warren	16
The compressive behaviour of a carbon fibre-reinforced plastic ring with a non-linear section M. Yasuda, I. Shibuya and T. Watanabe	134	Low-cost tooling for the hot press moulding of fibre-reinforced polyester: a case study G.M. Mallin and L. Hollaway	61	Silicon carbide fibres and their potential for use in composite materials. Part 2 R. Warren and C.-H. Andersson	101
The dynamic properties of carbon-glass fibre sandwich-laminated composites: theoretical, experimental and economic considerations R.G. Ni, D.X. Lin and R.D. Adams	297	On the design of thick rim composite material filament wound flywheels G. Genta	49	Stress transfer between fibrillated polyalkene films and cement matrices D.C. Hughes	153
The effect of environment on the compression strength of notched CFRP—a fractographic investigation D. Purslow and R.T. Potter	112	On the optical assessment of the void content in composite materials D. Purslow	207	Thermal bending of composite plates C.V.S. Kameswara Rao	291
Effects of morphology in the epoxy/PES matrix on the fatigue behaviour of uniaxial CFRP C.B. Bucknall and I.K. Partridge	129	On the tensile behaviour of filled composites F. Ramsteiner and R. Theysohn	121	Thermal expansion behaviour of laminated composites. Evaluation of superficial deviation from lamination theory G. Titomanlio and S. Piccarolo	39
Fatigue crack growth measurement in a CSM		Quasi-square holes with maximum failure strength in orthotropic plates N.K. Naik and K. Rajaiah	310	Wind angle effects in glass fibre-reinforced polyester filament wound pipes M.W.K. Rosenow	144
		A rational method for obtaining the dynamic mechanical properties of laminae for
